Caementum
The importance of the material

DESIGN
Marco Merendi & Diego Vencato, 2021

EN — Caementum is a monoblock concrete table specifically designed for outdoor use. Through the addition of carefully selected additives, this highly resistant material guarantees excellent technical performance, including ease of cleaning, greater resistance to mechanical stresses and weathering, and low permeability to liquids and stains. The surface of the base features the material's typical blowholes, while the top is completely smooth.

IT — Caementum è un tavolino monoblocco realizzato in cemento pensato specificatamente per l'outdoor. Un materiale resistente che, grazie all'aggiunta di additivi accuratamente selezionati, garantisce ottime prestazioni tecniche, tra cui una facile pulizia, una maggiore resistenza meccanica e agli agenti atmosferici, oltre che consentirgli di non assorbire liquidi e di non macchiarsi. La superficie della base è caratterizzata dalle soffiature tipiche del materiale mentre il ripiano è completamente liscio.

Elliot
Just like a dancer

DESIGN
Patrick Jouin, 2018

EN — With its elegant silhouette and minimal design, Elliot table has a strong identity that combines soft lines with sinuous natural forms. The three or four-lobed column in extruded aluminium narrows down and splits open to form three or four feet in die-cast aluminium, which elegantly sit on the floor.

IT — Un tavolo dalla silhouette elegante e dalle forme delicate e slanciate. Elliot ha una forte identità, unendo la morbidezza delle linee alla fluidità delle forme. La colonna in estruso di alluminio di forma trilobata o quadrilobata si separa, assottigliandosi, in tre o quattro piedini in pressofusione di alluminio che appoggiano delicatamente a terra.

Fluxo
Stability roots

DESIGN
Luca Casini, 2018

EN — Fluxo uses primary geometric shapes, starting from the section of its stem-like base, to generate a form with clean and minimalist lines. Made in die-cast aluminium, Fluxo has a stable structure and a distinctive personality, with a subtle and elegant design.

IT — Fluxo sviluppa geometrie primarie partendo dalla sezione dello stelo per generare una forma essenziale e minimalista, ma riconoscibile. Realizzato in pressofusione di alluminio, Fluxo ha una struttura resistente e una connotazione decisa, conservandone il tratto discreto ed elegante.

Lunar
Lightness architecture

DESIGN
Pio e Tito Toso, 2016

EN — Lunar table speaks the language of lightness and transparency, allowing the architecture of the surrounding environment to emerge. The base is the result of the union of four steel rod trapeziums and it can be combined with tops in different sizes and finishes.

IT — Il tavolo Lunar parla il linguaggio della leggerezza, lasciando spazio al vuoto, all'architettura, all'ambiente nel quale si inserisce. Il basamento nasce dall'unione di quattro trapezi realizzati in tondino d'acciaio e può essere abbinato a ripiani di differenti dimensioni e finiture.
